EXTRA-CURRICULAR ACTIVITIES

.MSTC(Microsoft Student Technical Community)
->Technical Team Member of MSTC
(November 2020 - Present)

.NCC(National Cadet Corps)
->Cadet of NCC at 1 PB AIR SQN NCC
(August 2019-Present)

.IMUN (Model United Nation)
->Campus Ambassador
(April,2021-May, 2021)

CERTIFICATIONS AND ACHIEVEMENTS

Modern Big Data Analysis Using SQL
(offered by Coursera)

- In this course, I learn how to manage big datasets using **sql,apache,hive**.

Journey 2 Salesforce Developer
(offered by Salesforce)

- In this course, I have completed the first milestone and learn how to use CRM platform **Salesforce**

PROJECTS

To do Web App

2020

To do list: [Website link](#)

- This project is made by using **CSS, HTML, and JAVASCRIPT**.
- A to-do list is a list of tasks you need to complete or things you want to do and in this design [Todo List App], there is a content box that holds only the input field with some buttons and text.
- When you entered some characters and click on the plus (+) button, the list will be added to your tasks list and the number of the pending tasks also be updated.

Drama Selling Website

2021

Korean Drama selling website: [Website link](#)

- This website is created by using **CSS, HTML, JAVASCRIPT, and Bootstrap**.
- This website consists of the home page, cart, about, and drama section, In this design I have created functionality such as adding and removing drama from a cart and used bootstrap validation to validate the login and signup page.
- I have created a payment gateway with bootstrap validation and created an order successful page along with the payment gateway.

SKILLS CHART

Languages: **C/C++, JAVA, Python (Familiar), HTML,CSS, JavaScript, php and Bootstrap.**

Framework: **MVC**

Databases: **MySQL, Mongo DB**
